

A CHARITY FIB.

The Young Idea Was to Set the Sensitive Person Perfectly at Ease About His Nose.

Notwithstanding the man knew how he had come by his red nose, he was extremely sensitive about it, and any reference to it was resented promptly and with emphasis. One day he was calling on some ladies when the small boy of the family was present. The youngster was strangely attracted by the radiant nose, and kept watching it from the moment the visitor entered the room until he had a chance to speak to his mother, relates the New York Herald.

"Is it wrong to tell a story, mamma?" he asked so that everybody could hear. "Of course it is," she replied, with a proper degree of horror.

"But isn't it right to tell one just sometimes?" he persisted.

"Well," she hesitated, "possibly if one is told to spare the feelings of some person it might be excused."

"And why does my little man ask such a question?" inquired the gentleman very coaxingly.

"Because," responded the boy, "I wanted to say your nose wasn't a bit red, if some body else wasn't going to say it pretty soon."

Later when the culprit was going to punishment he asked his mother if she wouldn't have liked him just the same if he had told the truth.

A Clergyman Who Wouldn't Submit to Any Orders from an Under-taker.

Rev. R. Perry Bush, of Chelsea, who was present at a ministerial assembly at the opening of the convention of the Massachusetts Embalmers' association recently, in the absence of Mayor Collins, who was to address the body, to speak a few words of greeting. He related an instance of a study undertaken and a funeral, says the Boston Herald.

"As I entered the church," said Mr. Bush, "I was greeted by the undertaker in charge of the funeral, who said: 'I want you to stand there, pointing to half-way up the pulpit steps.'"

"I prefer to stand either at the top or the bottom," I replied. "Then I can see my audience."

"You stand where I tell you," was the retort. "I'm running this funeral."

"But you are not running me," I answered, and I walked over just one minute to withdraw your order or get another minister."

"And I took out my watch and commenced to count off the seconds. At the thirtieth he said: 'Well, stand where you darn please!'"

"And I did," exclaimed Mr. Bush.

Chicago & Alton Inaugurate Novelty Between Chicago and Kansas City.

A grill room chair car has been introduced into service by the Chicago & Alton between Chicago and Kansas City. In the fore part of the car is a small kitchen connected with a little room 10 by 8 feet. The grill room is fitted after the style of a small American dining-room. Other rooms will be finished after the English and German styles. The grill rooms of the cars put in service are finished throughout in mahogany, with small, well-stocked and ornamented sideboard and round table at which six people can be seated. The kitchen is isolated and the diners are in close touch at all times with the steward. The decorations are elaborate. The tableware, including the china, is made to correspond with the general decoration, whether American, English or German, as the case may be. This innovation adds to the enjoyment of traveling, as a meal consisting of anything from a sandwich to a champagne supper can be ordered at any hour of the day or evening.

SHOWING THE WAY.

Most of our readers know all about the aches and pains of a bad back; very few people are free from most overworked organs of the body and "go wrong" at times no matter how well the general health may be. The trouble is so few understand the indications of kidney trouble. You are nervous, tired out and weary, have stitches, twinges and twitches of backache pains, but lay it to other causes; finally the annoyance and suffering attendant with urinary disorders, retention of the urine, too frequent urination, makes you realize the seriousness of it. At any stage you should take a remedy that will not only relieve but cure you. Read the following and profit by the lesson it teaches:

C. J. McMurtry, a resident of Freeport, Ill., addresses at Freeport, Ill., says: "I have greater faith in Doan's Kidney Pills to-day than I had in the fall of 1897 when I first took that remedy and it cured me of an acute pain across the back and imperfect action of the kidneys. Since I made a public statement of these facts and recommended Doan's Kidney Pills to my friends and acquaintances, thoroughly believing as I did both from observation and experience that they would do just as they were represented to do. I am still pleased to re-embrace my statement given to the public shortly after I first began to use the remedy."

A FREE TRIAL of this great Kidney medicine which cured Mr. McMurtry will be mailed on application to any part of the United States. Address: Foster-McMillan Co., Buffalo, N. Y. For sale by all druggists, price 50 cents per box.

The annual report of State Mine Inspector Williams shows that the output of lead and zinc in Missouri last year was 25 per cent. greater than for any preceding year, while the accidents and casualties were 17 per cent. smaller. The total production of zinc and lead was \$1,018,671. Of this \$3,308,671 was zinc and \$1,849,595 was lead.

The city of Sedalia has brought suit against the Sedalia Water & Light company to force it to construct. The petition alleges that the company has failed to supply wholesome filtered water to its patrons and also failed to lay a pipe line from its pumping station to Lake Lebo, where an abundant supply of good pure water can always be had.

Albert Cosby, a merchant of Pleasant Hill, committed suicide at his home while his wife and daughter were sitting on the front porch. Remorse because of the killing of a man near Louisville, Ky., 20 years ago is believed to have been the cause of the suicide. The killing was the result of a practical joke. Cosby had lived at Pleasant Hill for 20 years and his reputation had always been good.

There is a protest among the parents of public school students at St. Joseph against the history that has been adopted for the use of the public schools. It has been found that Thomas H. Benton, the Missouri statesman, is not mentioned in the book. That is the principal grievance of the school patrons. Another is its treatment of President Johnson. The author refers to him as "poor white trash."

Mrs. A. E. Jones, of Boone county, and B. P. Smith, of Holt county, thought they had raised the biggest apples in Missouri. The largest apple of each was 15 inches in circumference and weighed 1 1/2 pounds—that is, 20 ounces. The Ridgeway Journal announces that Spencer Young, living east of Rylthedale, has presented its editor with an apple that is 15 1/2 inches in circumference and weighs 2 1/2 ounces.

Lee Merriwether's public ownership ticket has been filed with the secretary of state. The ticket is as follows: State of Missouri, division No. 1, Minor Merriwether; division No. 2, William N. WHERE HANNA STANDS.

Attitude of the Ohio Senator on the Leading Political Questions of the Day.

At Akron, Saturday, September 27, the Ohio senator, Mark A. Hanna, spoke at the opening of the state campaign, saying:

"My friends, I have only a few words to say to you this afternoon, for I hope to be with you all fall. A year ago it was my privilege to attend the opening of the republican campaign, and after looking over the situation I came to the conclusion that I should give you a piece of advice: 'Let well enough alone.' That was the whole chapter; that was all there was in the campaign. To-day I say stand pat."

"You are not on the defensive in Ohio, or anywhere else in the United States, or in the Philippines."

"If you would paralyze the onward and upward march of progress in this country give the democrats a majority in congress, whence all legislation pertaining to the great economic principles must emanate. Take away the power from that body to-day to continue republican principles and you begin the work of harm by creating within our people the suspicion of doubt as to the future."

"Let one act like that give notice to the American people that the party which is responsible for our prosperity is to be displaced, and you will lay the foundation of danger which in a short time will undermine the people who are moving the great machinery of our industry and commercial interests, and from that moment capital will begin to hesitate, from that moment the wheels of commerce will slow down."

"When you have given notice that there is the slightest doubt in your mind about the soundness of republican principles, you sound a warning, and that warning will be heeded."

locked and will be acted upon by the commercial and industrial world to the detriment of our condition.

"Oh, republicans of Ohio, do not hesitate to doubt, and, above all things, do your duty as you know it and as you have done it in the past. It is in your power to say whether the present conditions shall continue."

"Now, we have come to the proposition that there is a need for a revision of the tariff. I believe the tariff is good enough as it is."

"If the time comes when the tariff needs revision it will be done by the men who have contributed to its construction so that conditions require a change they will change it. If I am asked by a man to change the tariff, I will inquire of him if it is necessary to change it, and if he thinks it is I ask him why it is necessary, and if we start out to change it, where shall we begin? There are too many interests involved to change the tariff."

"In regard to reciprocity with Cuba, I want to say, my fellow citizens of Ohio, that I am a supporter of that policy. I am now with his successor, President Roosevelt, in strong support of that policy, and I consider a most question, and believe that the sentiment of the people of the United States shall demand that we shall carry out."

"I want the people who are opposed to Cuban reciprocity to see that their position is an infringement on the principles of protection. It is not a defensible position, because we all know that many of the schedules in the Dingley bill were considered from the standpoint of reciprocity. Cuba has a right to demand that we do not bind her almost hand and foot, as we do under the Platt amendment. Cuba has the right to look to us to redeem the pledge of McKinley."

"As capital has undergone a great evolution, so, too, has labor, the partner of capital, been moving forward for organization and I am glad to see that organized labor has taken a higher plane in the ranks of the workmen."

"I am sure that the leaders of these organizations are as well qualified to lead their men as any body else. What we want to do is to recognize the cooperative value of their effort. What we want to do is to break the line of prejudice and take the full position he occupies, for he must prosper, and he must have his share of the profits."

"There is no discouragement in work that is founded upon the true principles of the golden rule, the golden rule not for political purposes, but for the purpose of humanity. That is my golden rule. This may take years of patient labor; the work must be accomplished."

"Therefore, go back to the campaigns of 1896 and of 1900, when the democratic party, so-called, knowing and appreciating the value of that great army of workmen, undertook to deceive them and use them in the interest of the democratic party, notwithstanding that McKinley had been our benefactor, McKinley, the man who had been the lifelong friend of the workingman."

"It will be seen that Wall street could not prevent the New York republican convention from expressing itself in favor of supervision of trusts by federal and state governments.—Indianapolis Journal.

UNBROKEN REPUBLICAN LINE.

Faithful Attempts of Democrats and Renegade Republicans to Create Discord in the Party.

From every direction there are evidences that the republican leaders are acting in harmony on all the great questions. The democratic story that the president and the secretary of the treasury were at variance regarding the secretary's attitude toward Wall street has been proven to be erroneous. Speaker Henderson takes occasion to tell the country that he is in line with the president and all the rest of the real leaders of the party on the tariff and all other questions of any consequence. It was asserted by the democrats that the New York republican state convention would either say nothing about the trusts or would straddle that question, thus giving a chance to the enemies of the republican party to say that the president, on the trust question, was assailed by his party in his own state. The clear and outspoken utterance of that convention in favor of the abolition of trust abuses knocks out this democratic pretense.

Seldom during a great canvass has the republican party been more completely in harmony on all the great issues than it is in the present campaign. All the leaders are pulling together everywhere. The attacks which were made on the tariff by a few irresponsible republicans at the beginning of the campaign have been repudiated and denounced by the leaders and the masses of the party, and the offending persons have subsided, except that they take occasion to explain that they did not mean what the general public supposed they meant. On the tariff question there is as much unanimity among the republicans at this moment as there was in 1880, 1884 and 1888, when it was virtually the sole issue. Since very early in his career the republican party has been devoted to the protection principle, and the prosperity which that policy has given to the country in the past 40 years is a fine testimonial to the courage, sagacity and vigilance of the republican party. There will be no surrender on the doctrine of protection to American industries, either in the congressional canvass of 1902 or in the bigger presidential campaign of 1904.

An attempt is made to create an industrial scare on account of the attitude which the president and the rest of the leaders of the republicans are taking on the trust issue. This will not succeed. The republicans know the nature of the question they are dealing with. They will make no assault on wealth, capital, industry or enterprise in any legitimate shape. All that they aim to do on the question of the combines is to give competition free scope in all the industries, to keep enterprise unfettered and to allow every person in the country to make the best use of his talents and general aptitudes of which he is capable. On this line the republicans will wage their battle in 1902 and 1904. The intelligence, the civic virtue and the general political sanity of the country are arrayed on the republican side in this fight. The republicans have winning issues, and they know it. The democrats also know it, and they are not making any boasts about carrying the country either this year or two years hence. The republicans are confident, because they know they have the arguments and the conditions on their side, but they are going to make an effort to get out their entire vote as if the same as if they supposed the result was in the profoundest kind of doubt.

If David B. Hill was a "very still" democrat in 1896 he is a very lively and potential one to-day. Doubtless the Bryan element would fight him if he were a candidate for president, but like Mr. Cleveland, Mr. Hill stands in close relations with the Wall street magnates. Even when Mr. Cleveland advocated an income tax Mr. Hill voted against it in the senate in 1894.—Indianapolis Journal.

Tom Johnson tells his audiences that he has been a flagrant monopolist and therefore knows about the evils they cause. Does he want to monopolize the power and honors of politics in Ohio so that he can have an inside view of the dark features of public life? One pretense would be about as good as the other.—Cleveland Leader.

Mr. Bryan is at no pains to conceal his disgust at Col. Henderson's course. He has no use for a man who will decline a nomination.—Des Moines Leader and Register.

PLAN TO BEAUTIFY PARIS.

American Syndicate Submits a Huge Project to the Council of That City.

Sidney Watkins, the Yankee engineer, has been expounding a gigantic project to the Paris municipal council. It is said he is backed by a powerful American syndicate and he offers to take the old fortifications, now disused, and demolish the walls at his own expense. On the 500-foot belt of ground thus provided all around the city he would dig a grand canal communicating with the Seine river, build an auto highway, a horse and riding track, and a bicycle track, unrivaled anywhere. These would occupy one side of the strip, and all the Watkins syndicate wants in return for the tremendous cost is the privilege to build, sell, and rent luxurious residences and hotels right at the water's edge, making the other side like the Venice grand canal. They also want a perpetual franchise for a gondola service. The plan is considered here as far from impossible, although it is surely the boldest plan yet submitted to beautify Paris.

WOMAN GOES WITH TRAMPS.

Disguised in Male Attire She Goes from Chicago to California and Enjoys Novel Experience.

The police of San Bernardino, Cal., in conducting a wholesale arrest of hobos found sleeping in Santa Fe box cars discovered a woman disguised as a man. She was young and comely and gave her name as Mrs. James Smith, of Chicago. She said she and her husband, who was arrested with her, had married in Chicago last September and determined to beat their way to California as a novel kind of honeymoon. She declared they had been arrested eight times and had all kinds of experiences. She had learned to ride the brake beam and knew what it was to be bounced in the heart of the Yuma desert.

A SUPERVISOR'S STORY.

Lockport, N. Y., Oct. 6th.—Mr. George P. Penfold, supervisor for the First ward of the city of Lockport, has written the following letter for publication to the newspapers:

"It gives me great pleasure to recommend Dodd's Kidney Pills as a cure for Kidney Trouble."

"My kidneys troubled me more or less for years and treatment by local physicians only gave me partial and temporary relief."

"An old friend, knowing my trouble, advised me to try Dodd's Kidney Pills, telling me that at the same time how much they had helped him."

"I used altogether six boxes and found a permanent cure."

"This was two years ago, and I have not since been troubled in any way with pains in the back or any of the many other distressing difficulties arising from diseased kidneys."

PE-RU-NA NECESSARY TO THE HOME.

A Letter From Congressman White, of North Carolina.

PE-RU-NA IS A HOUSEHOLD SAFEGUARD.

No Family Should Be Without It. PERUNA is a great family medicine. The women praise it as well as the men; it is just the thing for the many little catarrhal ailments of childhood.

The following testimonials from thankful men and women tell in direct, sincere language what their success has been in the use of Peruna in their families:

Louis J. Scherrinsky, 103 Locust street, Atlantic, Iowa, writes:

"I will tell you briefly what Peruna has done for me. I took a severe cold which gave me a hard cough. All doctors' medicines failed to cure it. I took one bottle of Peruna and was well."

"Then my two children had bad coughs accompanied by gagging. My wife had stomach trouble for years. She took Peruna and now she is well."

"I cannot express my thanks in words, but I recommend your remedy at every opportunity. For I can conscientiously say that there is no medicine like Peruna. Nearly everyone in this town knew about the sickness of myself and family, and they have seen with astonishment what Peruna has done for us. Many followed our example, and the result was health. Thank you heartily, I am."—L. J. Scherrinsky.

Mrs. Nannie Wallace, Tulare, Cal., President of the Western Baptist Missionary Society, writes:

"I consider Peruna an indispensable article in my medicine chest. It is twenty medicines in one, and has so far cured every sickness that has been in my home for five years. I consider it of special value to weakly women, as it builds up the general health, drives out disease and keeps you in the best of health."—Mrs. Nannie Wallace.

Peruna protects the family against coughs, colds, catarrh, bronchitis, croup, and all the ailments of the throat and lungs. It is just as sure to cure a case of catarrh of the bowels as it is a case of catarrh of the head.

Frisco System—New Observation Cafe Cars.

In addition to through chair car and Pullman Sleeper service the Frisco System operates on its trains out of St. Louis and Kansas City very handsome Observation Cafe Cars, under management of Fred Harvey.
